Autonomous agents

LP III-IV, 2008

Reading guidance 2008-01-29:

Literature:

1. **Wahde, M.:** *An introduction to autonomous robots* (lecture notes). [**MW**]

2. **Xie, M.** -- *Fundamentals of robotics - linking perception to action.* [**MX**]

3. Various scientific papers (web links or printouts will be made available during the course).

Lecture 3: Simulation of autonomous robots:
MW p.19-27, p. 109-114:

     1.5 Simulation of autonomous robots; *important*

         1.5.1 General issues; *important*

         1.5.2 Components of ARSim; *important*

         1.5.3 Using ARSim; *important*
